Agenda

In this meeting, we will discuss

- Teacher roster guidance
- Receiving growth scores
- Ensuring data quality
- Next Steps
- Support

Teacher Roster Guidance

Your district/charter has chosen to implement an alternative growth measure (AGM) for non-tested teachers in Pre-K, Kindergarten, First Grade and/or Second Grade for the 2022-23 school year in place of the student growth portfolio. This individual growth measure will be 35% of these teachers' overall level of effective score (LOE).

District portfolio leads and evaluation configurators received an email with the AGM implementing grade levels selected by your director of schools.

Teacher Roster Guidance

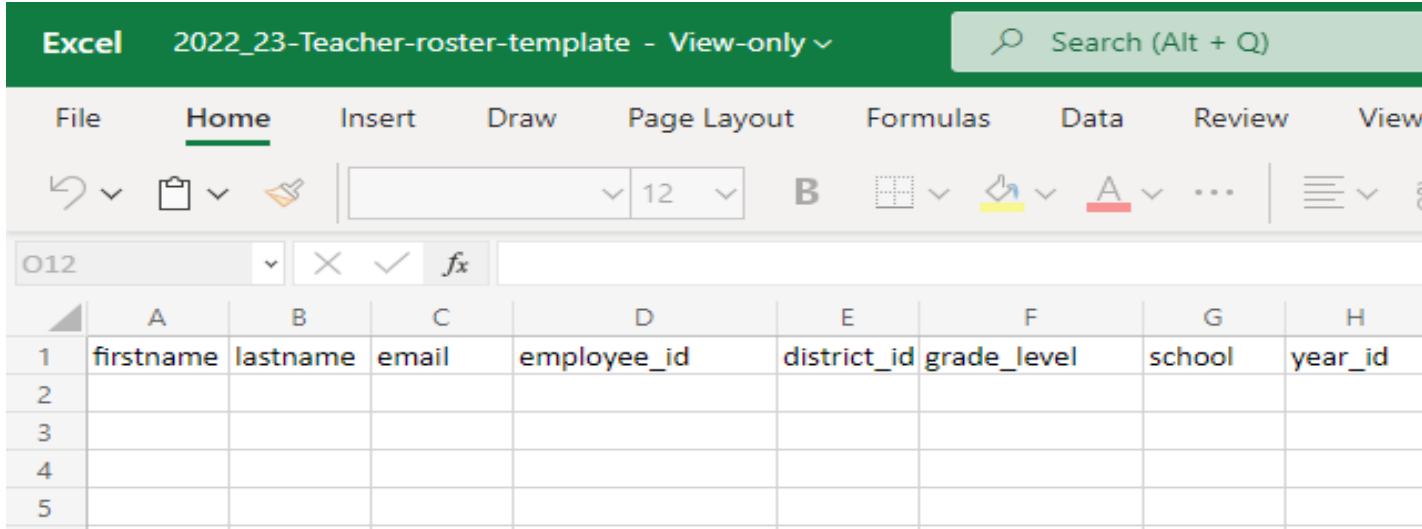

To ensure implementing teachers receive accurate growth scores, please complete this [template](#) to roster your teachers.

This information will be used to ensure each teacher of record is accurately represented in the data set.

Rosters must be submitted by **Friday, Dec. 9, 2022**. Submit fully completed rosters [here](#).

Receiving Growth Scores

- Implementing teachers who have fewer than six students with complete data sets from fall and spring administration will not generate an individual growth score from the URS. These teachers will have their level of effectiveness (LOE) scores calculated as non-tested teachers.
- Implementing teachers who do not generate an individual growth score from the URS due to lack of district data quality will receive an **incomplete (I)** and **will not generate an LOE**.
- The “[best possible](#)” [scenario](#) **will not** apply to the 2022-23 school year.

Ensuring data quality

Steps to ensure data quality include:

- Ensuring the teacher of record in the URS platform is the teacher of record in EIS for the ELA class. Students should not be attributed to any other teachers.
- Ensuring the state student identification number, teacher license number, and district and school identification numbers are accurate. Other than the student identification number, this information can be found in TNCompass on the educator's evaluations tab.
- Working directly with your vendor to correct all errors from error reports. Vendors receive error reports after each URS submission [window](#). Uncorrected errors may result in a teacher receiving an incomplete (I) growth score and no LOE.

Next Steps

- Ensure you know what grade levels your director of schools chose to implement the AGM-URS for your district/charter.
- Complete the teacher roster for all teachers in the implementing grade level.
- Verify the teachers on the roster are the ELA teacher of record in that grade level in EIS.
- Complete the Formstack and upload teacher roster by Dec. 9th.
- Work with your Universal Reading Screener vendor to correct errors.
