

# Portfolio Teacher Rostering Guidance for Portfolio Leads

In order for teachers to gain access to <u>Portfolium</u>, the TEAM student growth portfolio management platform, portfolio leads must provide the department staff roster information for all teachers in the district or charter who are required to submit a portfolio.

#### **Important Notes**

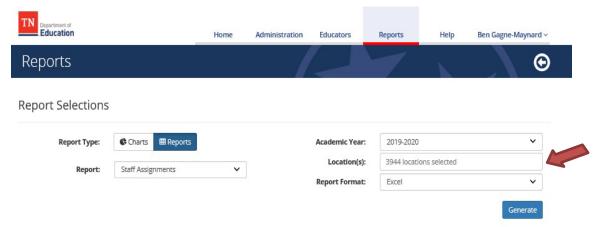

- Roster errors will prevent Level of Overall Effectiveness (LOE) generation.
- Portfolio leads should complete the portfolio rostering process using the <u>Portfolio</u> <u>Rostering Template</u>.
- The portfolio lead is responsible for ensuring that all data and staffing information added
  to the Portfolio Rostering Template is accurate and complete. Leads should coordinate
  with the district or charter's evaluation configurator and/or HR staff members to ensure
  accurate and up-to-date data. The department recommends utilizing an export from
  TNCompass to ensure teacher license numbers (TLNs) and staffing are correct. Process
  details are provided below.
- Refer to the <u>Student Growth Portfolio Teacher and Administrator Guidebook</u> for staff assignments and circumstances that remove a teacher's requirement to submit a portfolio. Leads should ensure that exempt teachers are not included in the roster submission.
- Teachers will not be granted access to the Portfolium online platform for the academic year until an accurate roster has been provided to the department. Any delay or inaccuracy in this information could result in teachers not receiving timely access to the platform.
- The department will accept rosters on a rolling basis beginning Sept. 8-Oct. 27. Please allow five
  to seven business days for processing, data cleaning, and uploading rosters to the Portfolium
  platform.
- Activation emails will be sent to teachers directly from Portfolium on a rolling basis as the
  rosters are received and processed. Teachers with a prior account with the same email on the
  current roster will not receive an activation email. Their log in will remain the same as the
  prior year.
- Please ensure that your district has not blocked emails from <a href="mailto:support@portfolium.com">support@portfolium.com</a> and <a href="mailto:support@instructure.com">support@instructure.com</a>.

#### **Completing the Portfolio Rostering Process using TNCompass**

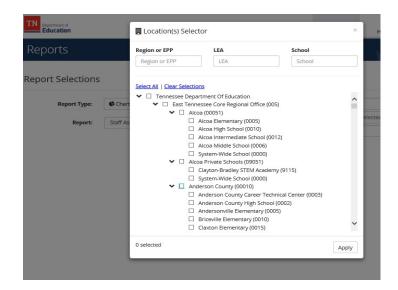

In order to prevent data quality errors and help ensure that all teachers within your district receive an accurate level of overall effectiveness (LOE) score, it is vital to coordinate with your district's licensure administrator, evaluation configurator, and/or HR staff members to ensure that all staffing data is up to date for the school year **before portfolio rosters are submitted**. Portfolio roster submissions should only include the information of teachers who are currently staffed in your district for the current school year.

- 1. Upon logging into <u>TNCompass</u>, select the *Reports* tab.
- 2. Select **Reports** using the **Report Type** toggle button.
- 3. Using the **Reports** dropdown, select **Staff Assignments**.
- 4. Use the **Academic Year** dropdown to select the current school year. Next, click on the **Location(s)** dropdown.

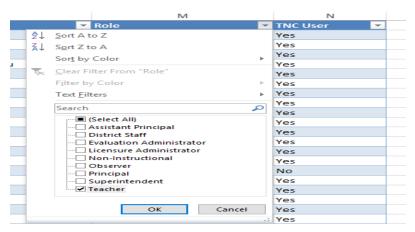

5. Within the **Location(s)** dropdown menu, use the Location(s) Selector tool to select the schools that have portfolio teachers.

- 6. Once you have selected all schools within your district where teachers who will be submitting portfolios are staffed, click the **Apply** button. This will help to generate a report that matches your chosen filters.
- 7. Using the **Report Format** dropdown, select **Excel**. Then, click **Generate**. This will generate the **Staff Assignments** report and download an excel file to your computer.
- 8. Once the **Staff Assignments** report has been downloaded, Save, and open the file in Excel.
- 9. View the information in the report to make sure you have all the educator staffing data you need. Once you've confirmed that the data looks correct, use the filter located in the **Role** Column (Column M) of the report to filter your results to "Teacher". This will ensure that only teachers are included in your portfolio roster. Remove any non-portfolio teachers from the spreadsheet so that you have only the data you need to include in the roster. Incorrectly including a non-portfolio teacher on the roster will cause that teacher to not generate a LOE.

10. Copy the necessary data from the Staff Assignments report to the Portfolio Rostering Template excel document. Only include the requested information in the Portfolio Rostering Template.
